

Initial Build Notes

Creative Director: Jen Kim

Designer/Developer: Chelsea Yuan

Comments:

- I love all the design elements (color/ font etc.), so there are no changes I want to make design-wise.
- The "Attractions" page is especially good in terms of user experience- considering the website is designed for tourists- with the photos for each attraction linked to the websites.

Possible Changes:

- the photos on "History" and "Walk of Fame" page could be centered or placed somewhere else.
- It'd be nice to have an indent at the beginning of each paragraph.
